

# ProQuest Professional Education™ & ProQuest Education Journals™

**Designed for educators' lifelong learning** ProQuest offers comprehensive reference collections for K-12 professional development and continuing education.

## Two ways to make good teachers great

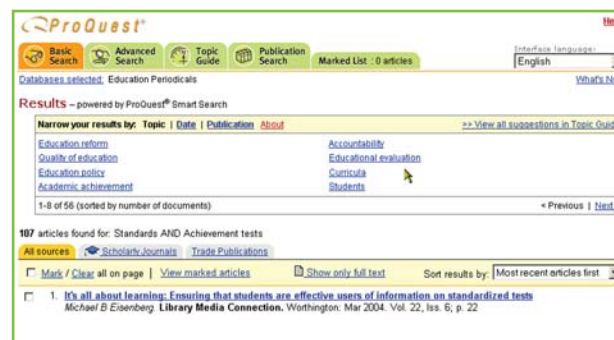

ProQuest Professional Education delivers over 300 full-text K-12 professional magazines and journals that address all aspects of K-12 education, including all core and supplemental curricula subjects, information technology, library science, business and administration, guidance and careers, and much more. ■ ProQuest Education Journals features all of the above, plus another 200 full-text periodicals and indexing and abstracts for 280 more. Additional titles include international coverage and broader coverage of other aspects of education such as adult education, higher education, and early

childhood. ■ Teachers and administrators alike will keep their edge with:

- Articles that model excellence in learning and teaching
- Support for professional in-service use, subject mastery, research on classroom application and efficacy, curriculum support, lesson planning, and study for advanced degrees
- Enhanced technological literacy

Researchers at any level of expertise can search by keyword, Boolean logic, topic, or publication. Power searchers can use ProQuest's renowned indexing to construct targeted queries. Marked lists make it easy

to save articles. And users can view, print, or email any article in one easy step. ■ My Research Summary lets users build a marked list containing a record of articles, previous searches, and publications visited in one easy-to-find location. Edit it, add headings and notes, print it, or download it in a self-contained HTML file for later viewing from any Web browser or insertion into a document. It's the perfect tool for sharing information among staff, saving research ideas, developing lesson plans, and more. ■ It's easy to see why our professional education resources give educators the most comprehensive reference tools necessary for continuing education.

## Curriculum Ideas

**Staff Activities That Make the Grade** Help your district meet the most stringent NCLB accountability requirements for funds such as Title II-A, Teacher and Principal Training, with online resources from ProQuest. ■ Here are just a few of the ways ProQuest professional resources can help with staff development activities targeted to Title II-A requirements:

- Support facilitators in training, offering opportunities for mentoring and intensive professional development through use of technology and quality resources
- Track trends, issues, and best practices to ensure everyone is knowledgeable about current techniques and strategies to meet student academic achievement standards
- Give teachers, regardless of their years of experience, equal access to professional resources to ensure consistency and guidance in meeting student academic achievement needs
- Provide topics of study for meetings to ensure staff has the necessary knowledge and teaching skills in their academic subjects and in technology literacy
- Communicate with staff using email articles and My Research Summary to promote mentoring and sharing of knowledge and resources through technology and peer networks
